Notice	Protect the surfaces during the 12 hours after application

WALL CLEANER

Instructions for use

- Application with paintbrush or sponge
- Application of 1 or more coats
- Ready to use; stir carefully before use
- Wall cleaner is ready to use, with a sponge, insisting on the most dirty zones and then removing the product with a humid sponge and rinsing carefully
- Clean frequently the zones near radiators and switches to avoid that dirt absorbs deeply in the finishing and becomes very difficult to remove.
- Surfaces not treated with waxes or protectives could have absorbed dirt and this could compromise the final result.
- Temperature of application 5° - 35°C.

Notes

The present technical chart has been written by Bericalce's experts and the indicated technical and scientific information have been tested in our own workshop.

Any responsibility regarding the results are due only to the method and conditions used during application of the product.

These indications are a valid support for testing the quality of the product in each specific case.
