DECERANTE LUXURY

Instructions for use

- Application with single brush or rag
- The product must be applied in 1 or more coats
- Before proceeding with washing it is recommended to remove any surface residues such as dust, debris and coarse dirt
- If present, protect adjacent surfaces on which the product is not intended to be applied
- If the wax layer is thick, use the pure product
- After processing, remove any product residues and rinse the entire flooring with plenty of water
- If the result has been achieved only in part, repeat the application in the same way and possibly slightly increase the concentration of the product in water
- Temperature of application 5° - 35°C.

Notes

The present technical chart has been written by Bericalce's experts and the indicated technical and scientific information have been tested in our own workshop.

Any responsibility regarding the results are due only to the method and conditions used during application of the product.

These indications are a valid support for testing the quality of the product in each specific case.
